Model Details

Model : Nfina 8324R

Partner : Nfina Technologies, Inc.

CPU Series: Intel Xeon Silver 4300 (Ice-Lake-SP) Series

System Type: Rackmount

Number of Sockets: 2

Max Cores per Socket: 20

Notes:

This page lists the specific configurations for which the server vendor has submitted certification test results to VMware, including BIOS version.

These are not the only supported or recommended configurations. Best practice is generally to use the latest BIOS version available for the server, even if it is newer than listed here. For further details about BIOS, server product configurations, and best practices, please contact the server vendor.

CPU Notes:

ESXI 6.7u3 support starts at 6.7.p03. For build information see <https://kb.vmware.com/s/article/2143832> If your server boot device is SD/USB flash media, please refer to KB 85685 (<https://kb.vmware.com/s/article/85685>) for best practice and support considerations.
